

Major Land Resource Area 145X

Connecticut Valley

Accessed: 05/11/2025

Ecological site keys

MLRA 145

I. Till

- A. Shallow to moderately shallow ... F145XY011CT – Well Drained Shallow Till Uplands
- B. Deep ... F145XY013CT – Well Drained Till Uplands

II. Dense Till

- A. Well-drained ... F145XY012CT – Well Drained Dense Till Uplands
- B. Moderately Well-drained ... F145XY014CT – Moist Dense Till Uplands
- C. Poorly-drained
- D. Very Poorly-drained

III. Outwash

- A. Excessively to Somewhat Excessively-drained ... F145XY008MA – Dry Outwash
- B. Well-drained ... F145XY009CT – Well Drained Outwash
- C. Moderately Well-drained ... F145XY010CT – Moist Outwash

IV. Lakeplains

- A. Well-drained ... F145XY007MA – Well Drained Lake Plain
- B. Moderately Well-drained
 - 1 Acidic ... F145XY005MA – Moist Lake Plain
 - 2 Semirich ... F145XY006CT – Semi-Rich Moist Lake Plain
- C. Poorly-drained ... F145XY004CT – Wet Lake Plain
- D. Very Poorly-drained ... F145XY003CT – Very Wet Inland Lake Plain

V. Alluvium

- A. Well-drained, infrequently to occasionally flooded ... F145XY001MA – Silty High Floodplain
- B. Moderately well drained, occasionally flooded ... F145XY002MA – Silty Low Floodplain
